

We've Loved Living Here!

Our family has loved living here for 33 years, and we're moving on to spend more time with our kids in southern California.

We love the location overlooking the waters of Sturgeon Bay and Green Bay. We enjoy seeing

the lighthouse directly opposite the house at Sherwood Point, seeing the lighthouse beacon at night, and hearing the distant channel buoy bell. We love the deck and it's view! We enjoy watching sail and powerboats pass through the bay, entertaining & having parties, and simply

enjoying the peaceful surroundings. On clear days visibility is about 40 miles!

Our family enjoys the water surrounding Door County. We love to take family boat rides, go fishing in one of the best fisheries in the world, and tow the kids on wake boards. The boat launch facility is about 3 minutes away, just down the hill! Boating is exceptionally easy with having a garage large enough to accommodate the boat, car, and toys. The garage was designed for a Class A motorhome, so you'll find 30 AMP RV plugs. The garage is heavily insulated, never freezes in winter, so it's been easy to store recreational items off-season; no need to haul them to a storage facility.

We have peace of mind while here or on extended absences. The house was designed to be incredibly thermal-efficient, pleasant, quiet, and easy-to-leave for long winter departures.

- **External walls are 14" thick, double 2x6**
- **Windows are all high-efficiency, Low-E**
- **Interior walls are all 6" lumber construction and insulated to minimize sound transmission**
- **Plumbing has easy drains for winter**
- **Three solar light tubes provide pleasant, free outside light for the kitchen, hallway, and garage**
- **Basement windows have portable thermal screens during winter absences**
- **The entire basement has a 2-zone in-floor heating system making for pure winter comfort!**

Although within 15 minutes of the city, we love the neighbors and country atmosphere! The surrounding woods have numerous wild turkeys, songbirds, and deer. The deer are so tame that they regularly walk through the front yard! Neighbors are the best, and have neighborhood monthly dinners!
